Step 3

PATIENT SEARCH

A) Use filters to find patients

- If searching for a patient referred by you or another provider in your practice, you can search by: First Name, OR Last Name, OR Date of Birth. The more information provided, the more refined the results.
- If searching for a patient who was referred by a provider outside of your practice, choose the "Extended Search" option. The search parameters for "Extended Search" require a Date of Birth.

A Table Filters

Patient	DOB	Appointment On	Booked On
TEST, Dan	04/28/1994	7:00 pm Tue, 12/15/2020	9:44 am Tue, 12/15/2020

B Search filters: First Name, Last Name, DOB, Email Address, Phone, Enter Email Address, Enter Phone Number, Extended Search

B) Select patient by clicking the name

Step 4

RESULTS

The Results tab shows recently released reports:

- Providers see results for any patient they referred. Patients referred by other providers can be viewed using "Extended Search" feature.
- Staff see results for patients referred by all providers within the practice. Patients referred by other practices can be viewed using "Extended Search" feature.

Reports and images are available for the past seven years.

Results can be viewed by Date of Service (adjusting date range in the Table Filters).

Results for exams, regardless of Service Dates, can be viewed by searching for that specific patient.
