

THE RADREPORT

QUARTER 3 UPDATE FROM OUTPATIENT IMAGING AFFILIATES

THE 4 TRENDS FACILITY PLANNING LEADERS NEED TO KNOW IN 2022

"Our Advisory Board team recently published the ten most important market trends in the health care industry. We know what they mean for health systems, but what implications do they have for REITs, architecture and construction firms?"

I've identified the four trends you need to focus on. The first two trends have similar implications for your business..."

HOW WILL THE MPFS PROPOSED RULE VALUATION CHANGES IMPACT RADIOLOGY?

August 15, 2022-- The calculation of reimbursement under the Medicare Physician Fee Schedule (MPFS) is made up of three components, each of which can be adjusted during the annual rulemaking process. The one most discussed is the conversion factor (CF)....

MIDYEAR RADIOLOGY CODING UPDATES & REMINDERS

Most updates to procedural and diagnosis coding become effective at the beginning of the year, but there are always a few mid-year changes that occur. In recent years, coding has changed to accommodate the COVID-19 public health emergency, and there are a few additions this year as well. Along with those, we'll also add....

DID NEW CT LUNG SCREENING GUIDELINES IMPROVE ACCESS?

July 28, 2022 -- Current guidelines on CT lung cancer screening from the U.S. Preventive Services Task Force (USPSTF) may not cover many current and former smokers who remain vulnerable to developing lung disease, a study published July 28 in JAMA Oncology has found....

WHAT ARE WE UP TO?

OIA expands in Raleigh- Full service Imaging

Raleigh, NC (April 2022)- Cardinal Points Imaging , the region's largest independent, non-hospital affiliated operator of outpatient imaging center locations, announced the development of its 5th location in the Cary Community which will provide Mobile MRI, Ultrasound, Mammography, DEXA, and X-Ray services.

"Over the past few years, Cardinal Points Imaging has solidified its brand as the only independent imaging center in the Raleigh market," states Amber George, Administrator of Cardinal Points Imaging. "Being independent results in a lower price point for exams, and a greater value for patients. Coupled with CPIC's focus on high quality and service deliver, referring providers, and patients choose CPIC for a better all-around experience than can be provided at outpatient imaging centers tied to hospitals."
